

Io[®] 4K Plus

** SDI connections are bidirectional and support 12G, 6G, 3G-SDI. For 2K/HD, capture and monitoring can be simultaneous. For 4K/UltraHD with 12G-SDI, capture and monitoring can also be simultaneous. For 4K/UltraHD with 3G-SDI, all four connections must be used for either Input or Output*

Workflow Diagram

Connect your digital sources via 12G-SDI to Io 4K Plus for capture to a wide variety of formats. Monitor via HDMI 2.0 output (HDR10, HLG, Dolby Vision*), and master to destinations using high quality professional SDI outputs, machine control and analog or tri-level reference. **Dolby Vision integration available when using the AJA SDK.*
